SUMMARY

AI and Machine Learning focused Software Engineer with strong full-stack development experience, having deployed 5+ production machine learning models and built scalable, end-to-end systems. Proficient in Python, C++, JavaScript, React, TensorFlow, and PyTorch, with hands-on experience developing REST APIs, automation pipelines, and data-driven applications. Actively seeking Software Development Engineer or AI/ML Engineer roles to build reliable, high-impact software solutions.

EDUCATION

Manipal University, Jaipur

B.Tech in Computer and Communication Engineering | CGPA: 7.88

Jaipur, India

2022 – 2026

Chethana PU College (Deeksha)

Junior College (CBSE) | Percentage: 87%

India

2020 – 2022

TECHNICAL SKILLS

Programming Languages: Python, C++, JavaScript, SQL, Bash, HTML/CSS, Go, Groovy, PowerShell

AI/ML & Data Science: TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy, NLTK, OpenCV, Keras, Hugging Face

Web Development: React.js, Next.js, Node.js, Express.js, Flask, FastAPI, REST APIs, GraphQL, jQuery, JWT

Databases: MongoDB, PostgreSQL, Redis, MySQL, SQLite

DevOps & Cloud: Git, GitHub, Docker, Linux, AWS, Google Cloud Platform, Firebase, GitHub Actions, Jenkins, Prometheus, Grafana

Tools & Testing: Jupyter Notebooks, Postman, Jest, Mocha, Playwright, Puppeteer, ESLint, npm, Nodemon, OWASP-ZAP, Nginx

Core Competencies: Data Structures & Algorithms, API Integration, Machine Learning, Problem Solving [[180+ LeetCode problems solved](#)]

EXPERIENCE

Software Development Engineer Intern

Aug 2024 – Oct 2024

TetraNoodle Technologies

Remote

- Automated 10+ cross-functional workflows through system integrations and reusable logic, cutting manual processing time by 70%
- Deployed and fine-tuned 5+ end-to-end ML models to production with production artifacts on Hugging Face. [[Model Link](#)]
- Developed and deployed AI-driven automation solutions for sales strategy optimization and marketing workflows

Project Intern

Jan 2023 – Mar 2023

Istop.ai

Remote

- Analyzed REST APIs and backend services using automated testing tools, working with HTTP protocols, request validation, and reliability
- Automated reconnaissance and security testing workflows with Python and Bash, reducing manual effort by 40%
- Designed test environments to examine API request lifecycles, service communication, and data flow for backend debugging

PROJECTS

Centralized API Orchestration Engine

[Live Demo](#)

Go, Nginx, Redis, Docker, Prometheus, Grafana, REST APIs

Jan 2026

- Architected a centralized API gateway with reverse proxying, API-key multi-tenancy, and rate limiting for secure traffic control.
- Delivered end-to-end observability using analytics, Prometheus metrics, distributed tracing, and structured logging.
- Engineered chaos engineering and admin controls with fault injection, latency simulation, dashboards, and secured health/metrics endpoints.

AI-Assisted Web Scraper

[GitHub](#)

React, Node.js, Flask, FastAPI, Gemini AI, ChromaDB

Jul 2025

- Built a production-grade AI web scraper with semantic search (ChromaDB) and LLM-based content rewriting.
- Implemented REST APIs for real-time content extraction and automated rewriting with 95% accuracy
- Reduced manual data processing time by 70% through intelligent automation and adaptive feedback mechanisms

CERTIFICATIONS & LEADERSHIP

Certifications:

- Machine Learning Specialization – DeepLearning.ai and Stanford Online
- Advanced Learning Algorithms – DeepLearning.ai and Stanford Online
- Career Essentials in Generative AI – Microsoft and LinkedIn
- Database Programming with PL/SQL – Oracle Academy
- Red Hat System Administration – Red Hat Academy

Position of Responsibility:

- Vice President, Cyber Space Club – Led 500+ member tech community (2024-25)
- Senior Technical Coordinator, Cyber Space Club – Manipal University Jaipur (Jun 2023 – May 2024)

Achievements:

- Student Excellence Award (Semester VI, 2024-2025)
- Dean's List Excellence in Academics (Semester II, 2022-2023)
- Top 30 Finalist – Deloitte Capstone Project (out of 200+ teams)
- Runner-up – Smart India Hackathon 2024
